

SSCOR Duet with Mounting Bracket

A Powerful Substitute for Wall Vacuum in an Emergency

The SSCOR Duet Portable Suction Pump is designed for the hospital crash cart, patient transport, and medical facility backup.

The SSCOR Duet with Mounting Bracket comes complete with a mounting bracket enabling the powerful SSCOR Duet suction unit to easily attach to the side of a cart.

The SSCOR Duet with Mounting Bracket is specifically designed to conserve the valuable real estate of the crash cart work surface.

Easily Attached to Walls or Carts

Powerful and Portable
With adjustable vacuum.

Universal Canister Holder

Complete information at www.sscor.com.

The SSCOR Duet battery care system will automatically charge and monitor itself.

The SSCOR Duet® contains a battery care system that is designed to gently hold the battery at optimal charge, without harmful overcharging.

While plugged into AC power, the internal battery control system will:

- Bring the battery to full charge, illuminating the green light on the side of the unit
- Drop back to “float” when the battery reaches full charge, eliminating damage or destruction of the battery caused by overcharging

The battery care system monitors the battery during operation, informing the operator of anticipated running time and will disconnect a depleted battery to protect the battery from destructive deep discharge.

The SSCOR Duet’s automatic capacity check will warn you when the battery begins to lose capacity. (Eventually all batteries lose capacity and need to be replaced.)

SSCOR will replace a SSCOR Duet battery that does not operate to specifications within three years of a SSCOR Duet purchase.

SSCOR Duet with Mounting Bracket Canister Options

The SSCOR Duet with Mounting Bracket - Model 2314B includes a Bemis 1200cc canister.

The SSCOR Duet **Model 2314BH** with Mounting Bracket accommodates a Medline or Cardinal 1200cc canister. **Canister not included.**

Specifications:
